TESFALDET HAILEAB

FULL-STACK SOFTWARE DEVELOPER | BACKEND & iOS

Philadelphia, PA | (215) 594-6887 | tesfi056@gmail.com | Portfolio | GitHub | Published iOS Apps

PROFESSIONAL SUMMARY

Full-stack developer contributing to a commercial salon management platform, with end-to-end ownership of its Square payment integration and Azure DevOps deployment pipelines. Experienced in cloud environments, web APIs, SwiftUI applications, and independently building a transportation management platform. Published three iOS applications.

TECHNICAL SKILLS

TypeScript, JavaScript, Swift | Next.js, React, SwiftUI | NestJS, Node.js, REST APIs | PostgreSQL, Prisma | Microsoft Azure, Azure DevOps CI/CD, Git, GitHub | Square APIs, Mapbox, Twilio, Xcode

SOFTWARE DEVELOPMENT EXPERIENCE

Full-Stack Software Developer — SAI | *Oct 2025–Present* | sai-salon.com

- Independently built the Square payment integration across frontend and backend for a commercial salon management and POS platform.
- Configured separate Azure development and production environments and managed production backend deployments.
- Created and managed Azure DevOps deployment pipelines for frontend and backend in development, and production backend releases; coordinated team DevOps workflows.
- Collaborated on additional product features with the development team.

Independent Full-Stack Developer — SafeBridge Transit | *2026–Present*

- Building a transportation platform with Next.js, NestJS, PostgreSQL, Prisma, and SwiftUI; currently in development and testing.
- Implemented scheduled and recurring trips, dispatch and driver assignment workflows, trip status lifecycle, broker-related operations, and messaging integrations.

Independent iOS Developer — Published Applications | *May 2023–Present*

- Developed Tigrinya Catholic Bible beginning May 2023 and published it in 2026, featuring offline scripture reading, navigation, highlighting, and sharing.
- Published Expense cash (expense tracking) and Checklist-Lite (task checklists) on the Apple App Store.
